OBJECTIVE

I am a motivated engineering student with interest in programming, and web development. Ability to apply theoretical knowledge to practical challenges. Strong problem-solving skills and good approach towards learning new concepts and technologies. Seeking opportunities to contribute as an intern or entry-level engineer where I can apply my skills and continue to grow professionally.

Education

Arya College of Engineering and Research Centre , Kukas, Jaipur	2021 – 2025
<ul style="list-style-type: none">Bachelor of TechnologyCGPA: 8.1	
Shree Krishna Public School , Jaipur, Rajasthan	2020
<ul style="list-style-type: none">Senior SecondaryPercentage: 90.00	

Technologies

Frontend: HTML, CSS, JavaScript

Database: MongoDB

Libraries and Tools: React, Next.js, Tailwind, Shadcn/ui, Zustand, Git, Github

Experience

Frontend Intern , Volyo Solutions Ltd. (Jaipur)	November 2024 – December 2024
<ul style="list-style-type: none">Gained practical experience in modern web development technologies, including React.js, Next.js, and MongoDBPlayed an active role in collaborative team projects, delivering responsive and user-friendly frontend components aligned with project goals and design specifications.Strengthened problem-solving and critical thinking skills by addressing complex development challenges, debugging issues, and refining application functionality.	
Junior Developer , SevenUnique Tech Solutions Pvt. Ltd. (Jaipur)	January 2025 – July 2025
<ul style="list-style-type: none">Developed responsive and visually engaging user interfaces using Tailwind CSS and Next.js, ensuring optimal performance across devices and screen sizes.Contributed in real-time web applications and assisted in the development of internal tools collaborated on UI enhancements, and implemented responsive design features.Gained hands-on experience with version control systems, actively using Git and GitHub for code collaboration, branching strategies, and workflow management.	
Junior Frontend Developer , Qubitron Labs (Jaipur)	August 2025 – Ongoing
<ul style="list-style-type: none">Developed scalable and high-performance UIs using React.js and Next.js, with a strong emphasis on seamless API integration for building dynamic, data-driven applications.Contributed to large-scale enterprise projects, gaining hands-on experience with 3-tier architecture to deliver maintainable, modular, and efficient codebases.Gained foundational exposure to Web3 concepts, including blockchain fundamentals, while working in a professional development environment.	

Projects

7UniqueVerify - [Link](#)

- Developed **7Unique Verify**, a fast and reliable identity verification platform designed to streamline user authentication and eliminate manual paperwork.
- Built using **React** for a dynamic user interface and **Tailwind CSS** for responsive, utility-first styling across all devices.

School Management Website - [Link](#)

- Designed and developed a responsive, user-centric school management website using **Next.js** and **Tailwind CSS**. The platform delivers a clean, accessible interface optimized for seamless interaction across all devices.
- Promoting a neat style, dependable design, and easy accessibility to important school updates.
- Focused on **adaptive rendering**, **fast load times**, and **intuitive navigation** to enhance usability for students, parents, and staff.
- Implemented key informational pages including **Home**, **About Us**, **Academics**, **Courses**, **University Life**, and **Contact**, ensuring structured content delivery.

Finance Website - [Link](#)

- Developed a modern, fully responsive finance website aimed at delivering a seamless and intuitive user experience for financial services and insights. Utilized Next.js for enhanced performance and Tailwind CSS for clean, scalable styling.
- Full-responsive and mobile-friendly for accessibility across devices and screen sizes.
- Optimized layout and content structure to support business objectives, build user trust, and improve engagement with financial tools and resources.

Certifications

- "Gargi Purushkar Award" twice for meritorious education from Balika Siksha Foundation.
- Completed Summer Training and Internship Program from Learn and Build Institute in JAVA Core domain.
- Completed Summer Training and Internship Program from Tactmak deviser Company in MERN full stack .
- Completed a **2-month internship** at **Volvo Solutions Ltd.**, gaining practical experience in **Next.js** and **MongoDB** as part of full-stack web development projects.
